

SCUOLA PRIMARIA - GRAFICI CLASSI PARALLELE

II QUADRIMESTRE

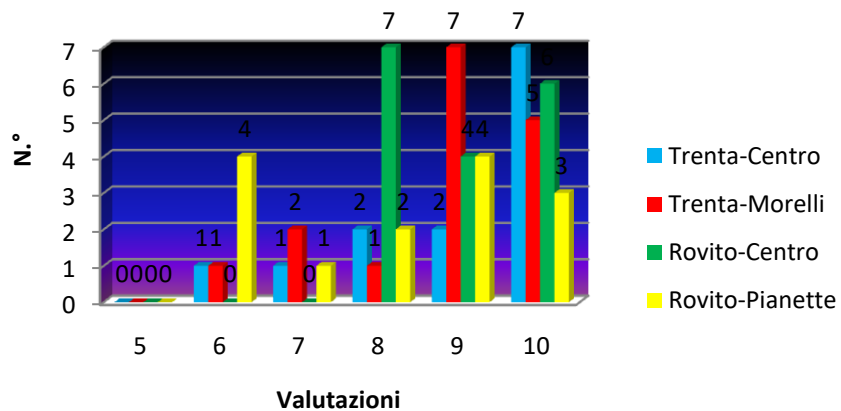

Il nostro Istituto valuta i propri alunni nel rispetto della vigente normativa e nella dimensione dell'autonomia ma è anche impegnato ad autoanalizzarsi e ad autovalutarsi monitorando costantemente gli standard di apprendimento per individuare, valorizzare ed ampliare i propri punti forti, per riconoscere i propri punti deboli ed assumere le necessarie azioni di miglioramento mirando ad una sempre più elevata qualità anche attraverso il monitoraggio degli standard nazionali ed europei.

Le prove per valutare gli apprendimenti degli alunni al termine del II quadrimestre relativamente alle discipline italiano, matematica e inglese, concordate dalle docenti di scuola primaria riunite per classi parallele, sono state somministrate agli alunni nell'ultima settimana del mese di maggio 2017.

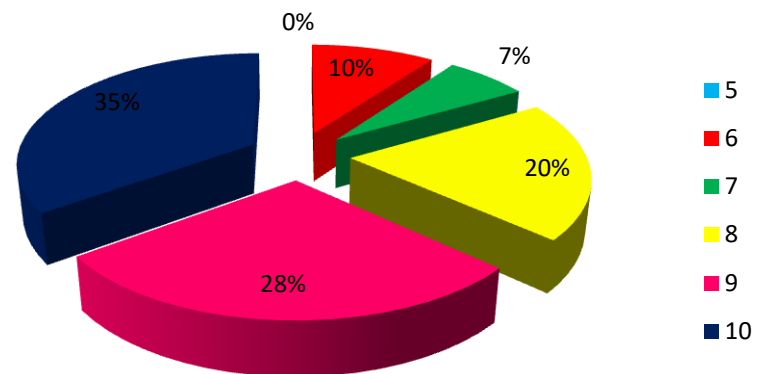

Inoltre, a tutte le classi di scuola primaria dell'Istituto, dalla prima alla quinta, sono state somministrate prove oggettive di classe, per tutte le discipline, che sono state valutate secondo parametri prestabiliti.

In questa fase, sono stati analizzati gli esiti del secondo quadrimestre e sono stati prodotti dei grafici riepilogativi, negli Istogramma si riportano i voti delle classi parallele di ogni plesso, nei grafici a torta le percentuali complessive degli esiti delle classi parallele.

In generale, dai grafici allegati, anche nel secondo quadrimestre, i risultati sono positivi per tutte le discipline.

Non ci sono differenze rilevanti tra i risultati conseguiti nelle diverse classi e neanche nei diversi plessi.

Analizzando i risultati più a fondo, si può osservare che nella maggior parte delle classi il punteggio medio è compreso fra l' 8 e il 9.

In dettaglio:

✓ ITALIANO - In prima si registrano progressi in tutti i plessi, il 35% conquista il massimo dei voti. Il 10% la sufficienza.

In seconda il 34% conquista il 9.

In terza il 6% raggiunge la sufficienza.

In quarta 60 alunni (il 5% del totale) arriva al 6. Il 25% il 10.

In quinta si segnala il 18% di 6, il 44% del totale degli alunni si attesta tra il 9 e il 10.

✓ MATEMATICA - Si registrano progressi in tutte le classi dei plessi.

- ✓ *In prima* raggiunge il 9/10 il 65% degli alunni, il 5% il 6.
- ✓ *In seconda* si abbassa leggermente il livello più alto (il 60%) e sale al 10% la sufficienza.
- ✓ *In terza* il 58% raggiunge livelli “TOP” e il 5% il livello base.
- ✓ *In quarta* il 53% ha raggiunto voti tra il 9 e 10 e l’8% la sufficienza.
- ✓ *In quinta* aumentano le sufficienze (16%) e diminuiscono i voti “TOP” (50%).
- ✓ **INGLESE** - Si rilevano risultati positivi in tutte le classi. Le valutazioni massime superano il 50% dalla prima alla quarta mentre, in quinta il 20% si attesta sul 6.
- ✓ **IN STORIA, GEOGRAFIA, SCIENZE e TECNOLOGIA**, in tutte le classi, le sufficienze si attestano tra il 2 e il 10%. Migliorano le valutazioni “TOP”
- ✓ **IN EDUCAZIONE FISICA** si registrano risultati molto positivi (oltre l’85%) in tutte le classi.
- ✓ **IN ARTE e IMMAGINE e MUSICA** risultati più che positivi (oltre 85%) tra 8 e 9.
